

CSU Stanislaus Intercollegiate Athletics
NCAA Regulations Pertaining to Satisfactory Academic Progress

Student-athletes signing below are indicating that they **have read and understand** the following regulations that affect their eligibility for participation in Intercollegiate Athletics.

1. All student athletes must meet with an academic advisor prior to their first semester of attendance at CSU Stanislaus. Raichelle Grays is the Athletics Academic Advisor and is located in SSB 105. She can be contacted by email at rowens@csustan.edu or by phone 209-664-6596. Walk-in advising is available Monday-Friday from 10:00am -3:00pm. A sign-up sheet is available outside of SSB 105. Student athletes who have declared a major should also meet with their major advisor prior to or during their first semester on campus. Often, a student can meet with both advisors at New Student Orientation.
2. If a student athlete has completed four full time terms of attendance at any collegiate institution, they **must** declare an academic major by the beginning of the fifth semester. This is applicable to junior college and four year institution transfers.
3. During each term of attendance, a student athlete **must** be enrolled in a minimum of 12 academic units to practice and compete. Student athletes are able to add and drop classes online, and are responsible for ensuring they always have at least 12 units on their schedule. If you intend to drop a course, make sure you are able to add the course you want to use to replace it so you do not fall below 12 units. **Do not** participate in practice or competition at any time with less than 12 units on your schedule.
4. A total of 24 units that lead to the undergraduate degree must be completed and passed each academic year of attendance. These units must satisfy General Education or major requirements, or be allowable elective units. If you are unsure as to whether you have allowable elective units, please see your advisor in SSB 105.
5. Remedial classes (Math 0103, 0106, Engl 1006) only count toward your 24 units while you are a first time freshman – sophomores in these courses cannot use them toward the 24 units needed to remain eligible.
6. No more than six units (25% of your 24 units needed for the year) can be completed in summer school sessions to maintain eligibility.
7. The student athlete must maintain the required CCAA GPA, a 2.0 cumulative **and** institutional GPA at all times. Students **will not** be eligible to compete if they fall below a 2.0 GPA.
8. The student athlete must earn six units of academic credit (GE, major, or allowable electives) in the preceding regular academic term in which the student has been enrolled full time at any institution. For example, a baseball player must pass at least 6.0 units in Fall to be eligible to compete in the following Spring term.

My signature below indicates I have read and understand the regulations listed above. I am responsible for maintaining a 2.0 GPA, earning 24 academic units per academic year under the guidelines listed above, and will be enrolled at 12 units at all times I practice or compete. I understand that I should check in with my advisor in SSB 105 immediately if I have any questions or concerns.
